## YES! Design it for me

Great! We'll work with you to produce something you'll love. All we need is:

- Sharp copies of photographs, logos or transparencies you want to use (you'll get best results from originals) or you can supply them electronically;
- A written brief. The more you tell us, the less it will cost. Include all your text and a sketch showing where logos and photos should go. We can help with the creative content – including writing copy and concepts – just ask.

We'll create your design and send you a proof. When you approve it, we'll print your order.

## ORDERING & PAYMENT
